

SURSEZ Times

Vol.I Issue No.18

1st June, 2010

From the Chairman's Desk

Dear Readers,

At the outset, let me congratulate all Unit holders and their employees for making our SURSEZ India's No. 1 (Non- Captive) SEZ in terms of exports. As per provisional figures, the units in SURSEZ achieved total exports of nearly Rs 24,000 crores in 2009-10 registering a growth of about 57% over the previous year. We should all work towards achieving bigger laurels in the coming years.

The future is likely to be challenging. The recent uncertainties in Europe are causing concern to industry. Exporters are keenly watching the developments. While the American recovery is turning out to be slow, the new crisis in Europe will add to the difficulty. On the domestic front, the regulators have undertaken some money tightening measures and may take more such steps if inflation continues to remain high as is presently the case. Such tightening may lead to higher interest rates and thus, cost for industry. Of course the government is keen to see that its money tightening measures do not adversely affect economic growth. This fine balance needs to be achieved. For exporters, any such cost increase coupled with likely declining demand from Europe is going to be a difficult situation. We need to come up with new innovative solutions to remain globally competitive.

We now have Development Commissioner exclusively looking after SURSEZ. By this appointment, the Government has recognized the significant role of SURSEZ and its unit holders and has decided to support the SEZ further. We thank the Ministry of Commerce & Industry for this step and welcome the new DC. We are sure that with continued support of the DC and his staff, SURSEZ can achieve further success.

With best wishes

S.N.Sharma

Welcome to New Units

We welcome to SURSEZ the following new companies. These have recently been granted Letter of Approval (LoA) by the Development Commissioner and are in the process of implementing their projects

Company	Proposed Activity
Perry Impex	Manufacture & Trading of Diamond & Jewelry.
C. H Exports	Manufacture & Trading of Diamond & Jewelry.
Blackstone Gem & Jewellery	Manufacture of Plain & Diamond Studded Gold Jewellery,
Dindayal Commodities Pvt Ltd	Manufacture & Trading of Jewelry.
Suyash Ayurveda	Manufacture of Essential oils & Resinoids; Perfumery Cosmetics or Toilet preparations, Organic Chemicals.

SURSEZ welcomes the new Development Commissioner

On behalf of the Unit holders and DGDC, we extend a warm welcome to Shri Vijay N. Shewale, ITS, the new Development Commissioner of SURSEZ. Now, SURSEZ has an exclusive DC who has his office in the DGDC premises just near the SURSEZ Main Gate.

The appointment of a separate DC for

SURSEZ will surely facilitate the Unit holders and Developer of SURSEZ by further streamlining the day-to-day operations to enable smooth functioning. We look forward to the continued support and guidance of the DC and his team of officials so that SURSEZ can achieve further laurels.

SURSEZ is India's No.1 (Non-Captive) SEZ.

As per press reports giving provisional export figures for 2009-10, SURSEZ with exports of about Rs 24,000 crores in the year is ranked just after Reliance Jamnagar SEZ, which is a Captive SEZ housing its

own refinery. This makes SURSEZ India's largest non-captive SEZ in terms of exports. Our complements to all the units which have made this possible.

New Facilities / Infrastructure in SURSEZ

As part of our ongoing efforts, we have made some more improvements in SURSEZ.

Security at the main gate has been enhanced with the use of technology. Close Circuit Cameras (CCTV Cameras) have been installed at the main gate, so that the movements can be recorded and monitored 24x7. Door Frame Metal Detectors have also been installed at both, the 'In' and 'Out' gates of SURSEZ.

To facilitate unit holders, the weighbridge has been shifted within the Zone premises at Road No: 13. Unit holders are requested to make use of this facility.

To further extend the 'greening' of the zone, plantations have been done right from the main gate of DGDC premises and along

various approach roads within and surrounding the SEZ. The nursery developed in the DGDC premises is increasingly being used by unit holders to avail of plants and saplings.

We have also undertaken some water conservation measures. The output of the Sewage Treatment Plant is being treated so that the water can be used for horticulture. We have engaged the services of consultant to advise us on 'Rain Water Harvesting', so this can be implemented during the forthcoming monsoon.

The range of offerings at SURSEZ. canteen has been expanded as per feedback received from the units' employees.

Success Stories in SURSEZ - Moldex Composites Pvt Ltd

Moldex Composites is a British- Indian enterprise. The Company aims to supply world class and cost effective advanced composite components.

For this purpose, the company has recently set up a state-of-the-art manufacturing facility on a 2000 sq.mtrs plot in SURSEZ. The unit will produce custom-made components made from composite materials for motorsports, automotive, aerospace, aircraft, marine and many other market sectors that require customized components.

The SURSEZ unit has staff of technicians lead by a group of experienced engineers from the UK who have many years of know how in the design and fabrication of composite parts.

The company specializes in hand laminated prepreg autoclave and "out of" autoclave technology, using carbon fibre (graphite fiber) /epoxy and other high tech fibres and resin combinations, such as Kevlar/Aramid, Boron, Basalt, E-glass, S-glass, Dyneema/Spectra

(HDPE), Zylon (PBO), Innegra, braids, fabrics, uni-directional tapes. PP, cyanate-ester, vinyl-ester, phenolic, PET, PA6 (Nylon), PEEK, PEK, CNT (CarbonNanoTube).

The Unit is capable of utilising other manufacturing technologies and materials to suit such as RFI (Resin Film Infusion), RI (Resin Infusion), bladder moulding, light RTM, heated press, vacuum table and using thermoplastic as well as thermoset materials. Preforms, braiding, co-mingled.

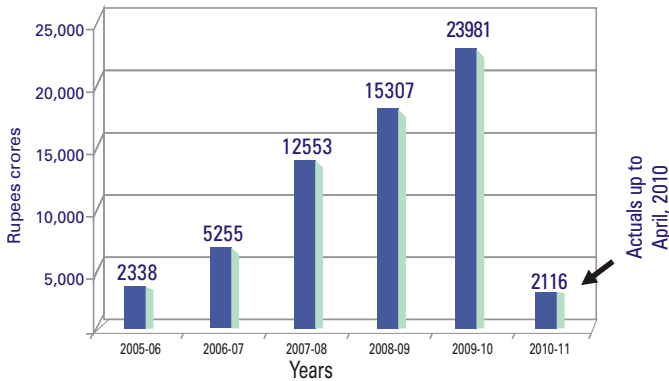

We wish them all the very best for all their future endeavors.
