Vol.I Issue No.16 1st Nov, 2009

ISO 9001:2000 Certified

From the Chairman's Desk

Dear Readers,

For over a year now, the Indian economy, in line with the Global environment has faced anxiety due to the recession in the developed world and slowing economic activity in China. The Indian Economy and growth has remained largely shielded from the global turmoil due to its resilient domestic demand aided by timely actions by the Indian Government. However, the export sector in India was affected adversely due to weak demand for its products in the developed world.

Recent signals from the western world indicate that the worst may be over. Renowned economists have expressed hope that we should now see a turnaround in the economic scene. Activity among Indian exporting companies including those in SURSEZ indicates more hiring in manufacturing and implies renewed demand. We may hope for the trend to continue and gather momentum.

At SURSEZ, exports continued to maintain the momentum. Total exports during April-September 2009 were about Rs. 9902 crores, which is 16% higher than the exports during the corresponding period of last year. Some greening initiatives have been initiated at SURSEZ, with the plantation of a large number of trees, development of nursery, and so on. We are exploring some eco-friendly measures in the area of energy usage, waste management, and so on. We plan to implement some measures soon.

Finally, with the onset of the festive season, we may look forward with hope and optimism to the future. My best wishes to you all.

With Best Wishes

S.N.Sharma

DC Meets Unitholders

SURSEZ had the privilege of receiving the DC Dr. Mrs Maya D Kem on 24th September at Sachin. The DC was accompanied by Shri. B. Patnaik, Jt. DC and other officials on her visit.

She held a meeting with unitholders and discussed various matters relating to the day-to-day functioning of SURSEZ. The meeting was well attended by the unit holders. A team of officials from DGDC

led by Mr. N.K.Maheshwari, Executive Director also participated in the meeting.

Later, the DC held meetings with the Developer of SURSEZ and other developers. The DC, along with other officials also visited to SEZ premises.

The meetings were very fruitful and served to encourage all participants.

New Facility

As a part of its ongoing efforts to facilitate the unitholders of SURSEZ, DGDC has planned to relocate the weighbridge within the SEZ premises. It was felt that such relocation will benefit the units which need to weigh import/export cargos under supervision

of the Customs officials and unload / reload cargos at their units. The preparatory work on this has commenced and the relocated weighbridge would be available for use soon. We urge unitholders to avail this facility once ready.

Greening of SURSEZ

A significant thrust has been given to greening of SURSEZ in the recent past. Over 5000 additional trees have been planted in various locations, notably on road no 13. These are fast growing varieties specially chosen for faster growth and adequate shade. A nursery has also been set up near the DGDC

administrative office block from where saplings and plants are made available for use by the unitholders within their premises. A consultant is advising the Developer on these initiatives. The local agricultural university has also been requested to assist.

Earth provides enough to satisfy every man's need,
but not every man's greed.

Despite slowdown, SurSEZ scores high on exports

SurSEZ authorities say almost 50 per cent of the export turnover of its 4,500 crore has been generated by diamond and jewellery manufacturing units. They feel the robust jewellery demand in West Asia, China and Hong Kong is set to contribute heavily to the export target of Rs 18,000 crore.

Surat SEZ exports at Rs 5,692 cr in four months

With an export target of Rs 18,000 crore for the year, this SEZ-exported goods worth Rs 5,692 crore in the first three months ending June 30, 2009 and it recorded the export of Rs 2000.70 crore in the month of July. The cumulative figure from April 2009 is Rs 82 crore.
